

CONTENTS OF VOLUME 21

Number 1

A method to determine propagation direction of compressive fracture in carbon-fibre composites E. S. GREENHALGH & P. C. COX (UK)	1
Fundamental frequencies of polar orthotropic annular plates with sectorial cutouts H. P. LEE (Singapore)	9
Vibration and buckling of hybrid laminated curved panels A. BARAI & S. DURVASULA (India)	15
A modified beam theory for bending and twisting of open-section composite beams — Numerical verification L. C. BANK & E. COFIE (USA)	29
Hygrothermal effects on the linear and nonlinear analysis of symmetric angle-ply laminated plates SEN YUNG LEE, CHIEN JYE CHOU, JENG LIANG JANG & JENG SHENG LIN (Taiwan)	41
Closed-form analytical solutions for a Griffith crack in a non-symmetric laminate plate WILFRIED BECKER (Germany)	49
Stiffness and thermoelastic coefficients for composite laminates AHMED K. NOOR & LAZARUS H. TENEK (USA)	57

Number 2

Cylindrical bending of arbitrary cross-ply laminated plates JI-FAN HE (People's Republic of China)	67
Comparison of shell theories in the analysis of railroad wheels N. GANESAN & T. C. RAMESH (India)	75
Fire-resistant composites for structural sections G. R. BISHOP & P. A. SHEARD (UK)	85
Modulus reduction and fatigue damage of matrix dominated composite laminates J. N. YANG (USA), L. J. LEE & D. Y. SHEU (Taiwan)	91
Acoustic response in warp/fill direction of GRP laminates V. K. SRIVASTAVA, O. M. KANNAN & T. C. KOSHY (India)	101
On the buckling of composite shells of revolution under external pressure ALEKSANDER MUC (Poland)	107
Environmental evaluation of repairs to fuselage lap joints L. MOLENT, N. BRIDGFORD, D. REES & R. JONES (Australia)	121

Number 3

Optimization of composite cylindrical panels for buckling by ranking K. P. RAO & H. R. GOPALKRISHNA (India)	131
Edge delamination in laminated composites D. DANIEWICZ & G. FRANTZISKONIS (USA)	141
Strength of composite laminates with continuous fiber around a circular hole H. J. LIN & Y. J. LEE (Taiwan)	155

Optimal tubular adhesive-bonded lap joint of the carbon fiber epoxy composite shaft	163
KI SOO KIM, WON TAE KIM, DAI GIL LEE & EUI JIN JUN (Korea)	
Free vibration analysis of laminates with circular cutout by hybrid-stress finite element	177
S. RAMAKRISHNA, KOGANTI M. RAO & N. S. RAO (India)	
An efficient global-local model for thick composite laminates	187
H.-S. JING & M. HWANG (Taiwan)	

Number 4

Effect of delamination face overlapping on strain energy release rate calculations	195
Z. TIAN & S. R. SWANSON (USA)	
Design of hat-stiffened composite panels loaded in axial compression	205
T. K. PAUL & P. K. SINHA (India)	
Buckling and postbuckling behavior of delaminated sandwich beams	211
M. SOMERS, T. WELLER & H. ABRAMOVICH (Israel)	
Hygrothermal effects on the buckling of laminated composite plates	233
K. S. SAI RAM & P. K. SINHA (India)	
Elasto-static and elasto-plastic stress analysis of adhesive bonded tubular lap joints	249
OLE THYBØ THOMSEN (Denmark)
